bad apple!

bad apple!

bad apple!

early

**bad apple!**

How to play:  
Shuffle cards and place in a bag or container where players can't see what they are choosing. Take turns to pull out a card. If it is a shiny red apple with a word, say it aloud. If correct, keep it. If the card is a **bad apple**, it ruins the apple just chosen, so the player puts 1 card back into the bag (never put a bad apple back). When all cards have gone, players can count to see who has the least **bad apples**. (this player is the winner).
